

Abzorb

2.5KG

TRIPLE ACTION WETTING AGENT

Abzorb is an effervescent tablet form with added Seaweed Extract, this concentrated wetting agent is easy to use. Simply take the tablet out of its packaging and place in the irrigation tank system to ensure an even application to the turf. Helps eradicate dry patches and also aids the green-up of turf with the seaweed extract.

Application Guidelines

1 tablet in 2500 litres of water will treat up to 1 hectare. Repeat as necessary depending on weather conditions and use of irrigation. Standard use every 2-4 weeks.

Health & Safety Information
